Report of the Trustees of the Josiah B.
Thomas Hospital for the Year Ending
December 31, 1930

Nineteen hundred and thirty has only brought out more clearly than ever the need of increased ward accommodations, which with the promised co-operation of the present City Government the trustees feel will soon be a reality. Legislation will be introduced in 1931 which will formally recognize the responsibility of the city to maintain the hospital and clear up for all time the exact status of the hospital here and the scope of the authority of the Trustees. A bond issue of about one hundred thousand dollars will be asked for to renovate the present buildings and equipment, remove the heating and laundry plants into a new building to be erected for them and raise the roof over the wards so as to duplicate in a second story the floor space now used for the ward. The final fruition of the legislation and the changes in the hospital plant long needed will release the energies of the trustees from the more material phases of their work and inevitably direct those energies toward a closer co-operation with the Superintendent in his constant efforts

to place all hospital activities here on a par with any institution of its size anywhere.

In short, the Trustees now see the coming of a day when for the first time in years they will not be almost entirely money-conscious but aware rather of the fact that there is something more to running an hospital than finding money for it.

JAMES F. INGRAHAM,
GEORGE S. CURTIS,

Dilatation and Curettage—Ventral Herniotomy	1

Excisions:

Angioma of Tongue	1
Anthrax Pustule	2
Bursa of Elbow	1
Carbuncle	2
Callus on Foot	1
Cervical Glands	2
Cyst of Neck	3
Dermoid Cyst	1
Exuberant Tissue and Fragments from Finger	1

Fistula	1
Foreign body from Hand	1
Fragments from Foot	1
Gland from Neck	2
Ganglia and Partial Amputation Distal Phalanges	1
Ganglia from Finger	1
Growth of Neck	1
Ingrown Toe Nail	3
Lipoma of Back	1
Multiple Angioma of Leg	1
New Growth of Breast	4
New Growth of Lip	1
Pilonidal Cyst	1
Semi-lunar Cartilage from Knee	1
Scar of Leg	1
Scar Tissue	1
Tubercular Abscess with Drainage	1
Wen from Hand	1
Wen from Head	1

Eye, Ear, Nose, Throat and Dental:

Adenoidectomy	1
Enucleation of Eye	2
Elevation of Fractured Nasal Bone	1
Extraction of Cataract	3
Extraction of Foreign Body from Cornea	1
Exodontia	13
Ligation, Bleeding from P. O. T. and A. Hemorrhage	1
Mastoidectomy	11
Repair of Eye Lid	1
Submucous Resection-Turbinotomy	1
Submucous Resection-Tonsillectomy	5
Submucous Resection	1
Tonsillectomy and Adenoidectomy	120

Tonsillectomy	18
Tonsillectomy and Exodentia	5
Tonsillectomy and Adenoidectomy—Exodentia	29
Turbinotomy	2

Incision and Drainage:

Anal Fistula	1
Antrum	6
Abscess of Buttocks	1
Abscess of Forearm	2
Abscess of Chin	1
Carbuncle	3
Furuncle of Ear	2
Finger	1
Foot	1
Glands of Neck	2
Hand	2
Ischio Rectal Abscess with Fistula	1
Leg	1
Prostatic Abscess	1
Peritonsillar Abscess	1

Laparotomy:

Appendectomy	109
Appendectomy Anterior Colporrhaphy and Trachelorrhaphy	1
Appendectomy with Bi-lateral Salpingo- oophorectomy	6
Appendectomy with Cholecystotomy	1
Appendectomy with Drainage	22
Appendectomy with Destruction of Adhesions	2
Appendectomy with Exploratory	4
Appendectomy with Excision of Cyst on Tube, Dilatation and Curettage	1

Appendectomy and Exodentia	1
Appendectomy and Gastrorrhaphy	1
Appendectomy and Partial Hysterectomy	17
Appendectomy and Herniotomy	2
Appendectomy, Ligation of Tubes, Perineorrhaphy and Trachelorrhaphy	2
Appendectomy with Parovarian Cystectomy	1
Appendectomy with Reposition of Ovary	1
Appendectomy with Suspension of Uterus-Dilatation and Curettage	1
Appendectomy with Salpingectomy	2
Appendectomy with Trachelorrhaphy	1
Appendectomy with Tonsillectomy Adenoidectomy	2
Appendectomy with Ventral Suspension	1
Alexander Adam's Suspension of Uterus, Dilatation and Curettage	2
Breaking up of Adhesions	2
Bi-lateral Salpingo-oophorectomy	3
Bi-lateral Oophorectomy	1
Caesarean Section	4
Cholecystectomy	4
Cholecystotomy	3
Cholelithotomy	1
Cholecystectomy and Choledochectomy	1
Colostomy with Drainage	1
Excision of Scar and Freeing of Adhesions	1
Excision of Fibroid Tumor	1
Exploratory Laparotomy	9
Exploratory Laparotomy with Drainage	1
Enterostomy	1
Herniotomy	23
Hysterectomy	8
Ligation of Vessel in Omentum	1
Oophorectomy	2
Oophorectomy with Plastic on Perineum and Cervix	1

Pan Hysterectomy	3
Partial Gastrectomy	1
Relief of Adhesions—Suspension of Uterus and Oophorectomy	1
Repair of Perforated Gastric Ulcer	1
Salpingo-oophorectomy, Perineorrhaphy and Trachelorrhaphy	1
Salpingo-oophorectomy	4
Ventral Suspension	2

Orthopedic:

Application of Plaster Cast to both Legs	1
Open Reduction without Cast	9
Removal of Bone Plate	2
Removal of Wire from Clavicle	1
Radical Cure Hallux Valgus	1

Miscellaneous:

Aspiration	3
Amputation of Cervix with Repair of Rectocele and Cystocele	1
Bi-lateral Vasectomy and Supra-pubic Cystotomy	1
Curettage of Finger	1
Cure of Cystocele with Perineorrhaphy	1
Extripation of Cyst of Cheek and Nasal Vestibule	1
Esophagoscopy	1
External Urethrotomy	3
Excision of Cervical Polyps and Perineorrhaphy	1
Hemorrhoidectomy	9
Incision and Probing for Foreign Body	1
Opening of Bone and Curettage of Necrosed Tissue	1

To the President and Board of Trustees of the J. B. Thomas
Hospital:

The annual report of the School of Nursing for the year
ending December 1930 is herewith submitted.

There are thirty-six students in the school. Seven stu-
dents have completed their course during the year. Classes
were admitted in February and September.

The affiliations are as follows: Massachusetts Homeopathic Hospital, Boston, Mass. Contagious Diseases — three months. Essex County Sanatorium, Middleton, Mass. Dietotherapy — two months. Medical diseases — three months.

As in previous years the students have enjoyed several social affairs at the Nurses' Home.

Graduation exercises were held at the High School Auditorium on May 21st, at eight o'clock. A reception followed.

We wish again this year to thank the President and Board of Trustees for their kind co-operation and to express our appreciation to the staff of physicians and surgeons who have so generously given our nurses valuable instruction and cared for them during illness.

Respectfully submitted,

ISABEL G. WATTERS, R. N.

Josiah B. Thomas Hospital School of Nursing

The J. B. Thomas Hospital School of Nursing offers a three year course to women who desire to become professional nurses.

A comfortable home is located in the hospital grounds and contains lecture rooms and diet kitchen suitably equipped for the instruction of nurses.

Government—The School is under the same management as the Hospital. The officers of the School proper are the Superintendent of Nurses and Assistant Superintendent of Nurses.

The Superintendent of Nurses has the authority to make all appointments of candidates for the School and to determine the qualifications of preliminary students for the work of the full course. She reserves the right, with the approval of the Superintendent, to sever the connections of a student with the School for any reason which the Hospital may decide sufficient.

Requirements for Admission—Students are admitted to the School in September and February. When possible application must be made in person to the Superintendent of Nurses. If this is impracticable, a written application may be submitted.

Candidates should be between the ages of eighteen and thirty-five. A high school education is required.

Graduation—Formal exercises are held each year. Students who have satisfactorily completed the training and proven themselves thoroughly qualified receive the diploma of the School, making them eligible for examination for the degrees of Registered Nurse.

Equipment for Admission—The following articles must be brought when the pupils enter the School:—

3 Uniforms	{	Directions for order-
12 Aprons		ing will be sent with
9 Collars		acceptance.

Four sets plain underclothing.

Two laundry bags.

Rubbers and umbrella.

Steamer rug or puff.

Bathrobe and slippers.

Watch with second hand.

Fountain pen and metal pencil.

Black oxford shoes with low rubber heels.

Students should come financially prepared to meet expenditures for the preliminary period.

Hours of Duty—Students are on duty fifty-four hours weekly. They are off one afternoon each week and four hours on Sundays and Holidays. These hours, however, are subject to requirements of the hospital work.

Vacation and Leave of Absence—A vacation of two weeks is allowed each year. Under ordinary circumstances illness of relatives or other household emergencies will not constitute a valid reason for absence from the School. If, however, exceptional conditions make it necessary for a

pupil nurse to return home, the Superintendent of Nurses, with the approval of the Superintendent, may at her discretion grant permission for leave of absence, but any time so lost must be made up before a nurse receives her diploma.

Illness—When ill, the pupils are taken care of gratuitously by the Hospital for a reasonable length of time, but time so lost must be made up at the end of the course. If special nurses or other unusual expense is deemed necessary this expense will have to be met by the students or their families.

Allowances and Expenses—Pupils receive board, room and laundry. After completion of the preliminary period an allowance of \$12.00 a month is given during the remainder of the course. The expenses of books, uniforms, etc. are covered by this amount.

Alumnae—All graduates are expected to become members of the Alumnae Association. Meetings are held in the Nurses' Home once each month.

All active members automatically become members of the County, State and National Association.

Theoretical Instruction

Practical Nursing.	Anatomy and Physiology.
Drugs and Solutions	Hospital Housekeeping.
Personal Hygiene.	Urinalysis.
Bacteriology.	Hygiene and Sanitation.
Ethics.	Nursing in Medical Diseases.

Nursing in Diseases of the Eye, Ear, Nose and Throat.	Public Health Nursing.
Diseases of the Skin.	Special Topics.
Veneral Diseases.	Reviews and Quizzes.
	Professional Problems.

The Hospital endeavors to give to its nurses a broad, general foundation for any of the specialized branches open to the nursing profession, as well as to fully equip them as private nurses. At present there is a growing demand for the well equipped nurse in the field of public health nursing, social welfare work, industrial nursing, tuberculosis nursing, Red Cross, Army and Navy nursing as well as institutional and teaching positions and for nurse anesthetists.

The field for a woman of ability and good training is large and the cost of the preliminary years of preparation is relatively small.

Hospital Aid Association

OFFICERS AND DIRECTORS

President

MRS. RALPH RAYMOND, Fay Avenue

Vice-President

MRS. JOHN BURBECK, Holten Street

Secretary

MRS. FRANCES RATCLIFF, Franklin Street

Treasurer

MRS. FRANK ROBERTS, Buttonwood Lane

From January 1st, 1930 to January 1st, 1931

The Hospital Aid Society of the J. B. Thomas Hospital has met each month during the past year under the able direction of its president, Mrs. Marjorie Raymond.

Some of the churches and organizations have been very loyal to the Aid. A lot of outside sewing has been done, also the mending for which the Aid was very grateful.

Donation Day was very successful which was greatly appreciated by the Hospital Staff.

The Food Sale was held by the different wards and was

very well attended. The money enables us to carry on our years work.

The following articles have been given to the Hospital this year:

Babies' Supplies

Diapers	18 doz. 1
